▷ Multiple payment channels, anytime, anywhere- Click2Pay, Mobile, and Payments Portal

▷ Service available for US, Canada, UK, EU, Mexico, Australia and Israel

Seamless

▷ Natively integrated into Priority's Reconciliation and Billing process

▷ Full/partial refund, including control of original transaction balance

▷ Recurring billing with tokens

▷ Highly-secure payments (PCI Compliance Level 1)

Features

Credit Card Clearing

Clear credit card transactions quickly and efficiently. Process individual sales using receipts or customize at the customer, order, or contract level. Integrated into Priority, eliminating the need for endless approval waiting. Easy registration process with no additional clearing, gateway, or funding providers required.

Click2Pay

Click2Pay offers fast and convenient payment options. Eligible customers can pay directly from the emailed invoice by clicking "Pay Now." The secure payment page provides a selection of payment methods. An automatic receipt and reconciliation are sent via email.

Priority Payments Portal

With the Priority Payments Portal, you can invite contacts of your customer, with a simple click, to a comprehensive portal where they can view and pay multiple invoices, generate receipts history, and enroll themselves to a standing order.

Additional Services

Directly from the dashboard, you can view and register for additional services, such as payment means (ACH, PayPal, BIT) or e-commerce connectors (Shopify, WooCommerce), 3DSecure, if you want multifactor authentication from your buyers, and more.

Dashboard

Access all payment data, transactions, and customer metrics in one place. Monitor and track payments and commissions in real time. Quickly see your organization's incoming payment status with an intuitive visual display.
